

**Sprint Goal:**

Implement and test necessary methods to filter database content based on the users selection to retrieve desired information. Polish methods for distinguishing between handling fixed content and AI free response questions on the backend. Continue work on AI Integration with gemini's chatbot and conduct testing to ensure no issues occur with providing context or character limits.

**Team Capacities:**

Base Capacity: 16 hrs for full sprint

Harper:

- Base capacity: 16 hours
- Deductions: 2 hours for denver trip
- Final Capacity: 14 hours

JD:

- Base 16 hour
- Deduct 1.5 hours per week due to job and recital prep
- Final Cap: 13 hours

Eddie:

- Base Capacity : 18 hrs
- Deductions: None
- Final capacity: 18 hrs
